Representative James Howard, D-N.J., at left, talks with Speaker of the House Jim Wright, after the House voted 401-26 to override President Reagan's veto of the $20 million clean water bill. (UPI)

House, 401-26, overrides Reagan's water bill veto

WASHINGTON (AP) — The House, drawing first blood in the spending battles facing the 100th Congress, voted overwhemingly Tuesday to override President Reagan's veto of the popular $20 billion clean water legislation.

The action, on a 401-26 vote, came shortly after Reagan made a final plea to GOP members to support his position that the public works legislation is too costly.

The vote sent the issue to the Senate, which is scheduled to take its override vote later this week and where even Republican Leader Robert Dole of Kansas all but conceded defeat on the first major spending question before Congress this year.

House GOP Leader Robert Michel of Illinois, urged his Republican colleagues to stand by their president. Michel said that while he had previously voted for the bill, the veto "changes the complexity of the situation."

But the White House got no help from representatives John Paul Hammerschmidt, R-Ark., and Arlan Stangeland, R-Miss., who had been among the Republicans most active in drafting the vetoed bill.

"I believe President Reagan has listened to the wrong advice," Stangeland said. "This body needs to send a strong message to the president and the American people that this Congress won't tolerate delays in the cleaning up of American waters."

Hammerschmidt said Reagan's argument that the bill was too expensive was reminiscent of that used in 1972 when President Nixon vetoed the legislation creating the clean water program. Nixon's veto was also overridden.

When he vetoed the bill Friday, Reagan acknowledged that he faced probable defeat on Capitol Hill. Before Tuesday's veto, members from both sides of the Capitol said the President was making no effort to round up votes to save the veto.

President Reagan on Nov. 6, vetoed an $18 billiion extension of the Clean Water Act of 1972, saying the proposed spending "exceeds acceptable limits."

U.S warships reported 50 miles off Lebanon

BEIRUT, Lebanon (AP) — U.S. warships were reported within 50 miles of Lebanon on Tuesday and official sources in Cyprus said civilian aircraft flying near the ships were ordered by radio to veer off.

The warships of the 6th Fleet were in international waters.

The sources in Cyprus, which lies 100 miles northwest of Beirut, spoke on condition of anonymity.

The United States marshaled a strong battle group in the eastern Mediterranean over the past week in response to rising tensions in the Middle East and following a spate of kidnappings of foreigners in Lebanon.

The kidnappers and Moslem leaders in Lebanon warned that any military action by the United States would mean death for the captives.

Pentagon sources stressed in Washington on Tuesday that the U.S. battle groups had received no orders to prepare for any military operation.

The sources, who demanded anonymity, said the carriers Kennedy and Nimitz, and a Mediterranean Amphibious Ready Group of roughly 1,900 Marines were steaming on a " routine patrol pattern" in the southeastern Mediterranean, south of Cyprus and relatively close to Lebanon.

The force consists of about 22 warships, and 1,900 more Marines were moved out of Spain on Tuesday to join the battle fleet.

Also Tuesday, Iran's Foreign Minister denied reports that Anglican Church hostage negotiator Terry Waite was held by Iranian Revolutionary Guards in Lebanon.

The fate of Waite, 47, remained a mystery. The six-foot seven emissary has not been seen since he left his hotel in Moslem west Beirut on Jan. 20, apparently for a meeting with Shiite Moslem kidnappers of two Americans held since 1985.

Lebanon's justice minister Nabih Berri, said in Damascus, Syria, Monday, that Waite had been arrested by the kidnappers. He did not elaborate.

Unconfirmed reports last week said Waite was spotted in Lebanon's Bekaa Valley, a

USG officials are undecided on push for student fee hike

By Karen Ali
Campus Correspondent

The student fee increase for the Undergraduate Student Government has been rejected twice in the the past two years, and some Executive Committee members are hesitant to say whether or not they will push for the fee increase again this spring.

"The decision will come out within two weeks," USG President Kraig St. Pierre, said. "We have to decide soon because if we decide yes we have to go through promotional campaigns ."

Michael Kainen, vice-president of USG, refused to say whether he thought the student government should consider the increase or not. "We have to all get together and figure out what we are going to do with the issue. The problem is we haven't made up our minds," Kainen said.

In 1985 USG asked for an extra $7 and was denied. Last year their request was cut to $5, but they lost again. USG currently receives an $8

Salmonella outbreak hits two restaurants

WEST HARTFORD (AP) — A salmonella outbreak at a West Hartford restaurant sickened four people Tuesday and threatened dozens more as state health officials tried to cope with the second such poisoning at a Connecticut restaurant in the past two weeks.

Wanda Rickerby, spokeswoman for the state Department of Health Services, said there was no connection between the poisonings at the BT II in West Hartford and the poisonings at the Treadway Cromwell Hotel in Cromwell.

In the West Hartford poisoning, health officials hadn't determined the source of the contamination that was discovered Monday night, but had taken sample from11 foods , Rickerby said. The restaurant was closed Tuesday.

"The number of people who are ill will climb, definitely," she said.

The salmonella infection had been confirmed in only four cases by late Tuesday, she said.

Health officials were awaiting the results of tests done on 20 to 30 other individuals to determine if they also were sickened by salmonella. She said 16 restaurant employees called in sick Tuesday and about 60 other people had called to report symptoms, she said.

A total of 45 patrons and employees at the Treadway Cromwell were infected with the bacterial poison.

All but three of those who became ill at the Cromwell Treadway ate prime rib served at the hotel's restaurant Jan. 23 through Jan. 25, said Dr. Matthew Cartter, who is in charge of the state investigation.

Symptoms of salmonella infection include diarrhea, vomiting, headaches, and sometimes fever.

NATION

Star Wars decision unlikely this year

WASHINGTON (AP) — Secretary of State George P. Shultz told Congress on Tuesday that despite rapid progress in anti-missile research, Presiden Reagan is unlikely to face a decision on whether to deploy the controversial "Star Wars" program this year.

But Shultz told the Senate Armed Services Committe that the 1972 Anti-Ballistic Missile Treaty with the Soviet Union should not be allowed to stand in the way of a U.S. space-based defense if a reliable and cost-effective system is developed.

If the Soviets do not agree to revise the treaty to clear the way for a U.S. anti-missile defense, Shultz said, the United States should withdraw from the agreement. Both nations have that right under the accord, he said.

He refused to say whether he had counseled Reagan to consider deploying a Star Wars defense, or to inform the committe whether the National Security Council had taken up the issue.

But Shultz stressed "there has been no decision made about the deployment of any kind" and "it's not at hand right now."

He also suggested his position was not in sharp conflict with that of Defense Secretary Caspar W. Weinberger, who reportedly is eager to have Reagan approve steps to deploy the first phase of an anti-missile defense.

"I think the president supports at least the deployment of an early phase," Senate Republican leader Bob Dole of Kansas said after GOP congressional leaders met with Reagan. "I would conclude from that he must feel that we can do that without getting in the way of arms control."

Later, Dole said the president "indicated" this in his talk with the lawmakers.

WORLD

Philippine voters back constitution

MANILA, PHILIPPINES (AP) The government said Tuesday that overwhelming voter approval of the new constitution shows Communist insurgents have little popular support., and offered to reopen peace talks with the rebels.

Juan Ponce Enrile, the former defense minister and President Corazon Aquino's main right-wing opponent, conceded defeat in the campaign against the charter along with several leftist groups.

Mrs. Aquino fired Enrile from the cabinet in November. The new constitution legitimizes her revolutionary rule, which began nearly a year ago, and she contends it will help stabilize a government beset by challenges from both the left and right.

Defense Minister Rafael Ileto said in a statement : "This shows repudiation of the Communist claim that it has the support of the people" for the insurgency that began 18 years ago against the government of Ferdinand E. Marcos. "It is clear our position is gaining ground."

Official returns from Monday's referendum were not expected for days. An unofficial tally of just over half the 86,918 precincts by the private monitoring agency National Movement for Free Elections, known as NAMFREL, showed the charter with 78.51 percent of the vote.

The only one of the country's 13 regions in which the constitution was behind was Cagayan Valley of northeastern Luzon, which includes Enrile's home province. The margin was 53 percent to 47.

Mrs. Aquino and her constitution were winning 52 percent to 48 in the Ilocos region of northwestern Luzon. That includes the Ilocos Norte, home province of former President Marcos, who fled the country last Feb. 26 in the face of a civilian-military uprising.

IN OTHER NEWS

WATERBURY (AP)- **Police apparently used Robert W. Burke's confession** to charge the 37-year-old Oakville man in the sexual assualt and strangulation of a teen-age girl, according to a published report.

Burke was ordered held on $500,000 bond when he was arraigned Monday on a capital felony murder charge in the July killing of 16-year-old Laura Ann Melio.

NEW HAVEN (AP)- **A former Choate Rosemary Hall student is scheduled to return** to the United States from Venezuela on Feb. 12 to face charges that he led a cocaine smuggling ring at the exclusive private school, his lawyer said Tuesday.

ATLANTA (AP)- **Federal health officials, worried by an increase in AIDS among heterosexuals,** said Tuesday they may recommend that AIDS blood tests be mandatory for all patients admitted to hospitals and even couples applying for marriage licenses.

The test for antibodies to the AIDS virus is now required only for blood donors.

LAS VEGAS, NEV. (AP)- **The United States conducted its first nuclear test** of 1987 on Tuesday, ignoring warnings it would spark a resumption of Soviet testing and surprising protesters who expected it later in the week.

Anti-nuclear groups claimed the test was moved up from Thursday because of pending protests at the remote desert site.

HAMBURG, WEST GERMANY (AP)- **Authorities banned thousands of private cars from the road** Tuesday, ordered factories to curb production and advised old people to stay indoors because of smog in Hamburg, Bremen and parts of Lower Saxony state.

In Hamburg, Environment Ministry spokeswoman Ulrike Hartnagel said most of the smog was brought in on southeasterly winds from Communist East Germany.

NICOSIA, CYPRUS (AP)- **Iran confirmed Tuesday that it arrested American reporter Gerald F. Seib** as a "spy of the Zionist regime " who entered the country in the guise of a journalist.

Seib, a 30-year-old correspondent for the Wall Street Journal, went to Iran with 56 other foreign correspondents by invitation from the fundamentalist Shiite Moslem regime.

Board establishes hall director position

By Lisa DenBleyker
Daily Campus Staff

A new position in the resident hall staff has been established for next fall, announced Carmen Vance, assistant vice-president of student affairs, last night at a Residence Hall Advisory Board meeting. The new position, officially titled Hall Director, will be a full-time, professional staff position replacing the current position known as area coordinator.

The number of area coordinators will be cut from seven to four and renamed complex coordinator, Vance said. The new position will provide more attention to programming needs, a job currently too much for seven area coordinators, she said.

The hall director will be part of a whole management team which comprises a complex coordinator, an area manager, an area government president and a food service manager, Vance said.

The goal of the management team is to create a stronger communication line between the professional staff of the residence halls and the students, Vance said.

In other business, Jane Lowell of residential life proposed a new housing system that would standardize the current systems used to assign the 242 single rooms available in some residence halls on campus.

Currently, each residence hall with single rooms uses its own system to assign students to a single, Lowell said. These systems include the amount of time a student requesting a single has lived in the dormitory or the student's semester standing, she said.

The diversity of systems makes obtaining a single a difficult process for students, especially those who live in dormitories that have no singles, Lowell said.

The new standardized system would make semester standing the only priority used to assign single rooms to students, Lowell said.

However, she said, the current systems will still be used at the April room draw.

Lowell said a campus-wide waiting list will be used over the summer to assign any left over singles from room draw.

Vance also spoke about changes in the student commissaries on the administrative levels.

While changes in small dining service will not be clearly visible to students in the fall of 1987, Vance said, administrative areas will change to eliminate the inconsistencies found in small dormitory dining service.

Such inconsistencies include the quality of the services offered in the different dormitories and the sanitation, Vance said. The problems exist because each small dining hall on campus is a separate business, she said. The drive for improvements will help to keep the businesses separate but equal.

An update on the rennovations occurring in dormitories around campus was given by Chip Yensan, a representative of UConn maintenance.

Over winter break the lounge in Eddy Hall was renovated, including all new furniture, Yensan said. Plans for the summer include building an enclosed cafeteria in McMahon, renovated lounges in Belden, Brock and all of Towers, Yensan said. And an aerobics center will be constructed in an empty room of the basement of Holcomb Hall.

Court is a solution when complaining fails

When you have trouble with a product or service, a claim, reasoned complaint usually resolves the problem.

Sometimes, though, complaining is not enough. An unscrupulous person may tell you that you are simply out of luck, even though you know you are right. If you don't find a solution to your complaint, you can-and should-contact the state. There is another possible solution, though: small claims court.

Small claims court is designed to protect your right to an inexpensive solution to problems that may not warrant a lawsuit in regular civil court.

Your do not need a lawyer to bring a small claims action, though you may use one if you want. You may sue a business or individual for up to $1,500. The business or individual may be located in or out of state. You can sue if you are age 18 or older, or if you are a minor and your parent or guardian goes with you to file the claim and attend the trial.

There is a straightforward procedure for beginning a small claims action:

1) If you are asking for money from a business, find out whether the business is a corporation (this information is available from the Secretary of State's office at 566-8570).

2) If the business is not a corporation, learn the names of the owners by calling the Town Clerk in the town where the business operates.

3) If you are suing an individual, you must find out certain facts before you file an action. An individual sued in a small claims court must not be serving in the military (if they are, they are exempt from small claims action). You can learn this by finding out where the person works or by calling the individual's home. You must also find the individual's correct address.

4) You have to write to the business or individual being sued before filing your claim. This letter, called a letter of demand, explains the background of your complaint and the action you plan to take in small claims court if you do not receive the payment you outline in the letter within 14 days of the letter's date.

5) You must bring your action in the appropriate court which is determined by where the individual you are suing lives, where the transaction took place or where the firm conducts business. To find out the proper court, contact the Judicial Department in Hartford, at 566-8219.

6) When you go to the court to file your claim, bring all information relative to your action-sales slips, letters, estimates, proper addresses of all parties involved, etc. The clerk will help you fill out the necessary form.

7) The clerk will give you a completed copy of the form. Keep this, for it lists the date by which the party being sued (the defendant) must answer your claim. If you don't hear from the clerk by this answer date, call the clerk in the court where you filed your claim.

The clerk may tell you that the defendant has filed an answer. If the answer is a denial of your claim, the clerk will contact you with a hearing date and time. If the defendant does not answer, you will receive judgement in your favor by default, but you may be required to appear in court. If the court has been unable to notify the defendant by registered mail, the clerk may tell you that you must hire an officer (usually a sheriff) to notify the defendant.

This is an excerpt from "Connecticut Law, in Plain Language" written by Attorney General Joseph I. Lieberman.

...students protest abductions

From front page

Shiite stronghold and base for about 400 Iranian Revolutionary Guards.

Iran's Islamic Republic News Agency, monitored in Nicosia, quoted a Foreign Ministry spokesman in Tehran as denying a U.S. media report that Waite was in the hands of the Revolutionary Guards in the Bekaa.

The spokesman said the report was "fabricated by imperialist news media" and stressed that Iran never sanctioned kidnapping foreigners in Lebanon.

The two Americans Waite seeks to free — Terry Anderson, 39, chief Middle East correspondent for the Associated Press, and educator, Thomas Sutherland, 55 — are held by Islamic Jihad. The group is believed to be made up of Shiite fundamentalists loyal to Iran.

Altogether, 26 foreigners now are missing in Lebanon and presumed kidnapped, including eight Americans.

A general strike called to protest the abductions of foreigners paralyzed lower west Beirut on Tuesday. Hundreds of students marched in the rain chanting and waving placards to protest the January 24th kidnapping of four teachers. The men, three Americans and an Indian, were taken from the campus of Beirut University College by gunmen posing as police.

Banks, schools, restaraunts, shops and other businesses closed in response to the strike call by the college's student council.

"You (captors) have gone too far! It's too much!" the demonstrators chanted as they marched through west Beirut.

HORSEBARN HILL IN THE WINTER—Lil Copan captures the wind blowing through the weeds on top of the snow-covered hill.

UConn undergrads eligible for Spirer/Robinson award

UConn undergraduates with an outstanding record of public service are eligible for the annual Spirer/Robinson Service Award.

The award recognizes a UConn student who has demonstrated a commitment to a humanitarian cause through the acheivement of good works, said Denise R. Hayman, assistant to the Dean of Students.

Nominations will be accepted between Feb. 9 and 20 and may be submitted by faculty, staff or the student. The award recipient will receive a plaque and certificate and $1,500 will be presented to the humanitarian or charitable cause named by the award winner. Or the selection committee may decide to present $1500 to the winner to help defray educational costs.

The award is named for Herbert Spirer, a professor of statistics at the UConn/Stamford campus, and Gerald Robinson, a New York attorney. Students who apply for the campus award will be eligible for a national service award sponsored by Robinson. Four national awards of $1,500 will be used to further humanitarian activities as directed by the recipients.

Qualifying UConn students must have completed good works during the past 12 months. Such works may include, but are not limited to: helping the homeless, hungry or sick; participating in efforts for world peace or the protection of the environment; working to eliminate cruelty or injustice; or acting to help resolve community, national or international conflict.

There are no special academic or financial need requirements to be eligible for the award, but nominees must be matriculating undergraduates at a campus of UConn.

To make a nomination, send a letter describing the project and the student's contributions, plus up to three letters of recommendation.

Goodwin appointed liaison with Uconn's foundation

A former manager of quality control and regulatory affairs at Purification Engineering, Inc., Baltimore, MD, has been appointed technology liaison officer with UConn's Research Foundation.

The new position was created to enhance and increase activities in the areas of University technology identification and development on the Storrs campus and at the UConn Health Center.

Charles Goodwin will be a liaison with university researchers and administration, review present research projects at the university and actively seek those with commercial potential and provide support to faculty members in the administrative details of invention management.

Goodwin, whose office will be in the Research Foundation, will report to the director of the foundation.

He will work with the University Technology Corporation (UTC), of Durham in obtaining licenses and patents for University Intellectual Properties.

UTC, in a five-year agreement with UConn, will also help identify innovations, find the most likely potential users, and obtain venture capital to develop and market the invention. UTC will fully fund Goodwin's salary and office operations.

Goodwin received his bachelor's of science degree in biochemisry magna cum laude, from the University of New Hampshire and a doctorate in biochemistry from John Hopkins University School of Medicine.

A former insturctor of medicine and research associate with John Hopkins University, School of Medicine, Goodwin has professional affiliations with the American Chemical Society, American Heart Association, American Society for Quality Control and Regulatory Affairs Professional Society.

Professor awarded prize from language association

Glauco Cambon, professor of Italian and comparative literature at UConn, has been awarded the 1984-86 Howard R. Marraro Prize from the Modern Language Association of America (MLA).

A UConn distinguished alumni professor, Cambon received the award for his book Michelangelo's Peotry: Fury and Form, published by Prince University Press in December 1985.

Cambon, who traveled to Italy and the Vatican to research material for his book, is the first UConn professor to receive the MLA award. Marraro, for whom the prize was named, was a professor of Italian literature at Columbia University.

AN EQUAL OPPORTUNITY EMPLOYER

...USG fee increase

From front page

activity fee from students, which is included on students' fee bills. All club funding, which totalled $40,000 last semester, as well as area council funding, comes from the student government.

Although most Executive Committee members would not say how they would vote if a proposal were approved, Public Relations Chairman Steve Protter, indicated his position on the fee increase.

"I would like to see a proposal for a student fee increase. But you have to know what you are going to do with the money before you ask for it-that is the key element," Protter said, adding that a proposal for a student fee increase has to include a commitment to new programs.

John Jee, a USG assembly member, said USG needs the fee increase to put on better concerts than John Cafferty and the Beaver Brown Band and to lure lecturers that are more than political "has-beens."

Jee said USG has sufficient funds to allocate money to clubs and area councils. But, he said, "If you are going to do something, do it right and bring in a Kissinger or Kirkpatrick. But again, that takes more money than USG is able to afford with the current budget."

Jee said that if USG proposes to ask for the increase this year they have a better chance than they did the two previous years, because the circumstances are better this year.

"There is only one group asking for money," Jee said.

In1985 *The Daily Campus*, WHUS, as well as USG, asked for fee increases. Jee said that it must have been too much of a financial burden on the students to vote yes to all three fee increases.

In 1986 WHUS and USG both wanted fee increases. This fact, as well as bad press for USG, may have contributed to the rejecting of USG's fee increase in 1986, Jee said.

All 26 members of USG will decide whether to push for the increase or not at an upcoming student assembly meeting, according to Protter.

"Hapkido" to be offered

This semester, American Hapkido is making its debut in UConn's newest martial arts club. "Hapkido" is not a word with which most people are familiar, said Rick Schubert, a second degree black belt in this uncommon Korean martail art."Loosely translated, the word means 'unity of center way'."

"Hapkido is a synthesis art. It was founded in the late 1940s by Master Yong Shul Choi, who combined elements from a number of different martial systems, some of which were also incorporated into Aikido, Hwrang-do and Taekwon-do as well."

Paul Cofrancesco, a UConn student who has studied with Schubert, said he was immediately impressed with the practicality of Hapkido. The techniques are all tailored for maximum efficiency and street applicability.

"Hapkido isn't esoteric. It's merely a unique blending of aspects of several great martial arts, endowed with a flavor and a perspective all its own," said Schubert.

Hapkido uses kicks, punches, throws, rolls and joint manipulation directing the practitioner to focus his or her physical and mental energies to generate devastating power while moving fluidly.

Yet studying Hapkido, said Schubert, also reduces aggressiveness and provides students with a greater appreciation of life. Like most martial arts, he said, Hapkido is intended as a means of self defense.

"It mellows me out," said John Cartalano, another Hapkido student. "You leave a workout with a sense of serene self-confidence and inner control, and a feeling that you've put your problems into perspective."

Rick Schubert instructs the new club, which meets Tuesday through Thursday from 6:30 to 8 pm at the Hawley Armory Gym.

"Billionaire Boy" bagged for con-man killing

SANTA MONICA, Calif. (AP) — The leader of the Billionaire Boys Club, a group of rich young men determined to make it big, bragged that he committed the perfect crime after killing a con man. But the victim had the last laugh, a prosecutor told jurors Monday.

Deputy District Attorney Fred Wapner said he would prove that Joe Hunt, 27, in a compulsive quest for money and revenge, murdered Ron Levin, a part-time journalist and self-described con man.

Wapner said that Levin (whose body is still missing) helped solve his own murder by the complicated con operation in which he trapped Hunt and other members of the investment club.

"The last laugh was Levin's," said Wapner, who detailed how Hunt demanded that Levin sign over $1.5 million from his Swiss bank account before he was killed.

"He (Levin) was the kind of person who liked to talk about having a Swiss bank account. But there was $40 in that account. The check could never be cashed," Wapner said.

Wapner said that Hunt left at the alleged murder scene a handwritten blueprint for murder: a seven-page list entitled "To Do At Levin's" which said "close blinds...tape mouth, handcuff...kill dog."

Wapner then outlined a complex series of financial manipulations and a multi-million dollar scam conducted by Levin which, he said, drove Hunt to murder.

Hunt, who claimed he had an unbeatable commodity trading system, was told by Levin in September 1983 that he had placed $6 million in an account at a Beverly Hills commodity exchange for Hunt to trade.

Hunt thought he had parlayed the money into $15 million, and his share of the money would help the club's ailing accounts. But Levin, who was pressed for money, was forced to tell Hunt that it was all a joke: The account was phoney, and no money had been made or traded.

Wapner said at least 10 of the young club members were told of the June 6, 1984, murder in a bizarre meeting June 24 at Hunt's condominium. Those who realized "they were in over their heads," he said, eventually talked to the police.

He said Hunt told his closest friend, Dean Karny, that Hunt and another club member, James Pittman, committed the killing after forcing Hunt to sign the $1.5 million check. Karny, who has described himself as second-in-command of the club, is a protected witness against Hunt.

Within days, Wapner said, Pittman tried to use Levin's credit cards to pay his bill at New York's Plaza Hotel and establish that Levin was actually in New York the day after he disappeared from his Beverly Hills hotel.

But the cards were overdrawn and were not honored, and that led to Pittman's arrest.

Hunt bailed out Pittman, but four months later both were arrested after other members of Hunt's club told their stories to the police.

Defense attorney Arthur Barens has said he will produce witnesses to bolster his theory that Levin is alive and had skipped town in June 1984 to avoid prosecution on unrelated grand theft charges.

The club was formed by Hunt with young men from rich Los Angeles and Beverly Hills families he met as a student at a Southern California prep school. It was from their families that the money was tapped for the clubs failed investment schemes.

Professor discovers perfect love potion

After 23 years of research, Dr. Rufus T. Valentine, noted romanceologist, has discovered the perfect love potion.

Said Dr. Valentine, "The FTD® Sweetheart™ Bouquet is a perfect combination of flowers and a heart-shaped potpourri in a ceramic powder jar. Lab studies have shown it to have a powerful, romantic effect on both sender and recipient.

"However," Dr. Valentine warns, "the effect seems to peak around February 14. And you must make sure to go to an FTD Florist. Otherwise," he added, "you may find yourself spending Valentine's Day alone in a most unromantic place–the library."

And now the plane truth about flying...

By Simon Barker
Daily Campus Staff

Flying is generally a simple process.

It only involves the tedium of hanging around in airports for hours on end; the hassle of dragging around huge bags full of clothes that you never wore or indispensible items (the use of which eludes you upon arriving home); being squashed into small spaces for long periods of time, unable to get up and walk around, partly because of the air turbulence, but mostly because you have been availing yourself a little too much of the free on board drinks; the almost inevitable boring film that you have already seen ten times (mostly on planes), but cannot avoid watching without recieving serious neck injuries; and the headphones specially designed to give you earache and a barrage of horrible noises (but if you don't subject yourself to this, you'll have to listen to the screaming child behind you, or the babbling old lady sat next to you who insists on finding out the particulars of your private life, and telling you about all of her grandchildren).

Let's face it, flying is an awfully complicated business.

And then there is another wolf in sheep's clothing that I must address: connecting flights. Now, these may appear to be very nice, extremely useful things, but they are not. Avoid them at all costs. A connecting flight, we are told, involves going *through* an extremely interesting city, hardly interrupting your journey at all. What it really means is that you must go hundreds of miles out of your way to wait around for ages in an airport in a city of which you've never heard, so that the air company can save on the number of flights.

If you're not lucky enough to be delayed overnight, you may at least get to spend several hours in the middle of nowhere...

However, I don't mean to give the impression that flying is all bad.

It does have its good points: you may get delayed and put up for the night in a nice big hotel that you couldn't possibly afford to stay in otherwise. You can order room service when you arrive at four in the morning, and eat a six million dollar sandwich whilst watching, on television, the same film that you saw on the plane.

If you're not lucky enough to be delayed overnight, you may be able to spend several hours in an airport in the middle of nowhere. This airport will no doubt have a snack bar so that you can have some refreshments on the company that has stranded you there. Since it's all free, you can order yourself a couple of beers, a triple shot of whiskey, and a few pastries, and drown your sorrows in a sea of alcoholic beverages (just don't try and get back on the plane by yourself afterwards).

And if you're very, very lucky, you might get both treatments, maybe even another meal or two thrown into the bargain.

Fans and relatives pray for Liberace

PALM SPRINGS, Calif. — Fans of Liberace lit candles on the curbstone outside his house as friends and family kept a vigil Tuesday for the gravely ill pianist famed for his candelabra and diamond-studded costumes.

Attorney Joel Strote, who said he represents the 67-year-old star's estate, emerged from the desert home Tuesday and told those assembled that little had changed from Monday, when Liberace was described as near death.

"He is still really resting comfortably," the lawyer said. "The doctor was with him. We think it's a question of a few hours or a few days, but we think it's rather imminent."

Asked if Liberace is conscious, he said: "Yes, he's conscious, but he's not talking to people."

"It's real touch and go," said his publicist, Denise Collier. She said Liberace suffers from anemia, emphysema and heart disease. A spokesman last week denied a published report that he has AIDS.

The large group of young and old fans that participated in the candlelight vigil on Monday night had dwindled to a handful by the time Strote appeared outside the house yesterday.

FINANCIAL AID DEADLINE
UCONN Students Are Reminded That FEBRUARY 15,1987 Is The Deadline For Applying For Financial Aid For 1987-1988

All students (including incoming Freshmen) must submit both the Financial Aid Application and the Financial Aid Form (FAF). The FAF must be sent to Princeton, New Jersey and the University Application must be submitted to the Financial Aid Office prior to February 15, 1987 in order for financial aid awards to be completed by the fee bill date which is July 15, 1987.

All students who intend to apply for a State Guaranteed Bank Loan should submit their Bank Loan Application at the same time they apply for financial aid. Bank Loan Applications should be picked up at participating banks or at the Financial Aid Office. Application for PELL Grant is included on the FAF. Students must submit their Student Aid Reports (SAR) for the PELL Grant to the Financial Aid Office as soon as they receive it from Iowa City. The Financial Aid Office must have the SAR regardless of the student's eligibility for the PELL Grant.

All students who are enrolled on at least a half-time basis and who have not previously recieved a Bachelor's Degree from any institution are eligible to apply for PELL.

Deadline for graduate students who previously attended the University of Connecticut is February 15, 1987. Newly entering graduate students' deadline is May 1, 1987.

IMPORTANT: Undergraduates must be considered full-time (earn 12 credits per semester) in order to receive financial aid. Graduate students must be considered full-time by their advisors or departments.

NOTE: FEBRUARY 15, 1987 DEADLINE STRICTLY ADHERED TO.

Benton raises Ruckus with exhibit party

By John Fiordelisi
Daily Campus Staff

The Red Grooms exhibit at The Benton Museum can best be described as zany art by a brilliant artist, as many people discovered at last night's Red Hot Ruckus, the party held by The William Benton Museum of Art for Grooms.

Grooms, who is fifty years old, concentrates his efforts on cartoon-like sketches and humorous situations. He says, "I'm for craziness, but also practicality. I do admire Disney a lot - he's one of the few guys I can see as a hero."

According to Hildy Cumings, the director of The Benton, Grooms does his own thing, and always has since he dropped out of art school and went to New York City. She described Grooms as the first to do "happenings" or "performance art", which included his work "Ruckus Manhattan", a sculpture in which he redid the Statue of Liberty, The World Trade Center, and The New York subway in his own unique style.

Grooms is most famous for his "sculpturamas", as he calls them. Sculpturamas are cardboard cut-outs, and usually remake a whole impressionable situation perfectly, right down to the last detail.

Such an example is "London Bus", which Grooms did in 1983. "London Bus" depicts every personality from punk rockers to businessmen to housewives, with each image carrying an appeal of practicality. Grooms states: "My work is about exits and entrances anyway. The entrance idea has for me the quality of Purgatory, and here are these defenseless souls."

Cummings stated that Grooms was a child progidy who won art contests as early as high school. She also said that he dropped out of art school twice, wanting only to do his own thing.

In his work "Fran Tarkenton," created in 1979, he depicts the Super Bowl quaterback in an action pose poised to throw, with an incredible likeness and a humorous overtone to better outline the vinyl painting.

Grooms doesn't seem to hold back much. Rather, his work is an appendage of his person. He says, "Art is such a personal thing. It's just one person, one ego, almost singly envisioning the world to their own size."

His silkscreen work, "Mango, Mango" has somewhat of a Parisean feel to it, like a sweep-you-off-your-feet attraction. Grooms is more for quantity than quality in art,

Last night's party celebrating Red Groom's exhibit attracted quite an interesting and assorted crowd. (Dan Dennehy photo)

UConn Women's Center rolls camera for Africa

Today and tomorrow, the UConn Women's Center will sponsor two recent films which parallel the relationships between Black women household workers and their white employers in South Africa and the southern United States. Both films will be shown at the Afro-American Cultural Center.

Maids and Madams: Apartheid Begins at Home, recently filmed in South Africa, eloquently documents the tragic domestic situation of the more than one million black maids who are underpaid, forced to work long hours, and separated from their own children and families. Although some liberal, white feminists try to alleviate the situation, they, too, are trapped by the Apartheid system. The emotional relationships explored in this film are a microcosm of the racial issues which divide South Africa. It will be shown twice at the Afro-

THE INSTITUTE FOR PARALEGAL TRAINING
Demand for our graduates exceeds supply 2 to 1.
What more can we say?
...except that college grads come from as far as Hawaii and Alaska to take the Institute for Paralegal Training's acclaimed 4-month program.
We train them in any of 7 specialized fields, including Administrative and Public Law and International Trade Law. And our placement service helps them get a job in the city of their choice – a service backed by a unique tuition refund plan.
Right now our students are in demand by banks, corporations, government agencies and law firms nationwide. Four months after you graduate college, you could be, too. Call 1-800-222-IPLT. In PA., call (215) 567-4811.
We'll be on campus February 10
Contact your placement office to arrange for an interview or group presentation.

New W-4's 'taxing'

Confusion is sweeping the tax-paying population.

Because of this year's tax changes, employees are being asked to submit new W-4's which, according to the form, will assure the proper amount is withheld from their pay. But anyone wading through the four pages of instructions is left with just the opposite impression—the new W-4's are impossible to understand.

They are confusing to a point where even a college graduate needs an accountant to do the math, a magnifying glass to read the small print and a dictionary for the polysyllabic words. Even Department of Treasury Secretary James Baker has admitted that the forms are "entirely too complicated" and is calling for the Internal Revenue Service to develop simpler ones.

The question is, how did these forms ever get approved in the first place? Three hundred million (the number of W-4's distributed) is no small mailing list. For a document that must be filled out by every worker in the country, they could have been alittle more careful with the text before printing. And aside from the aggravation, how much is this IRS oversight going to cost the taxpayers?

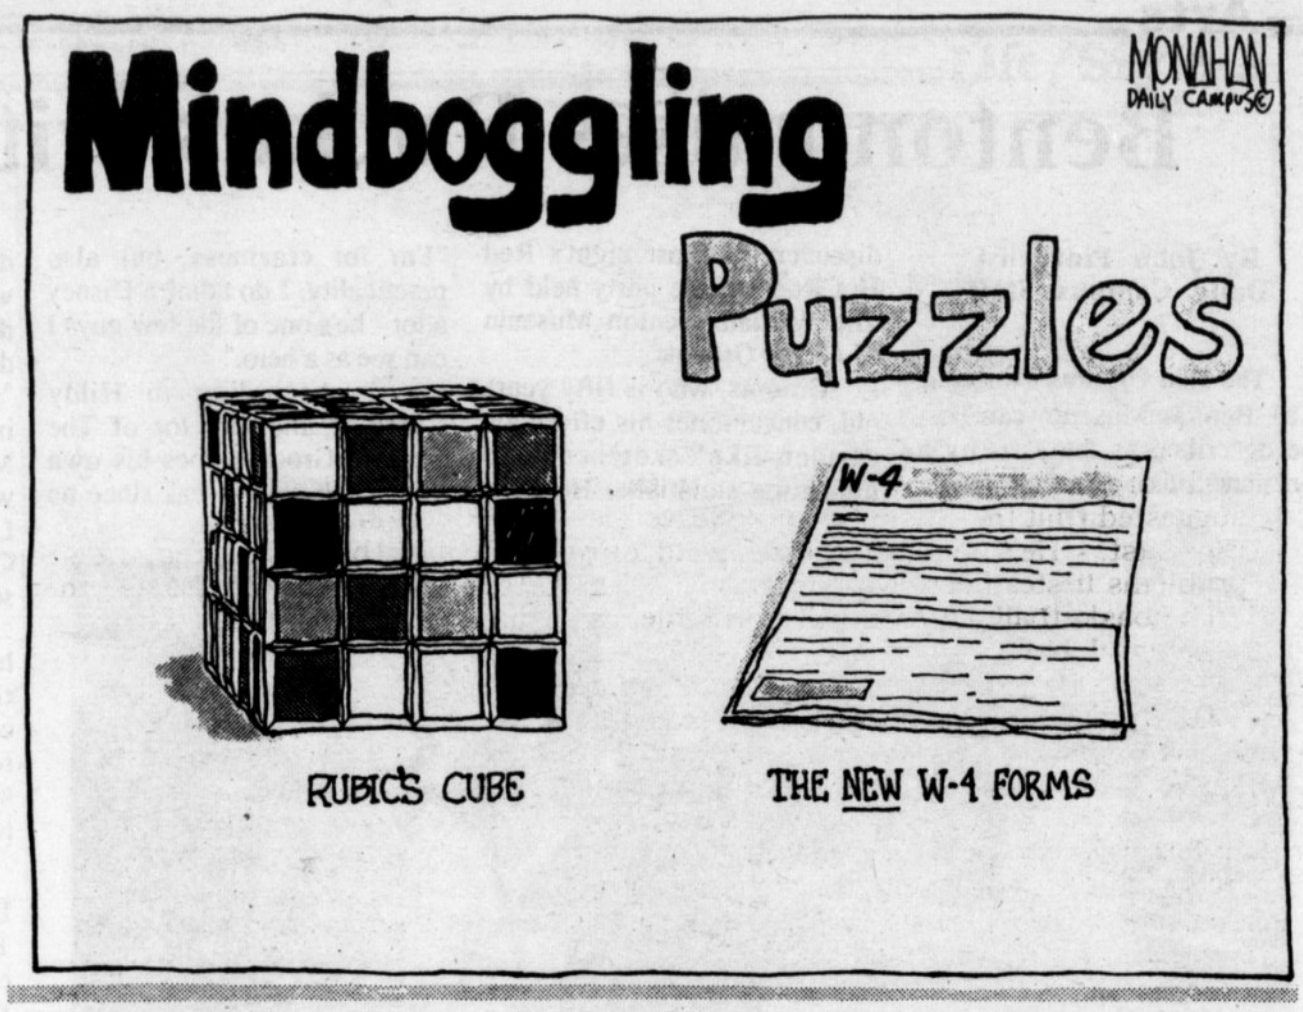
It will be interesting to see what the IRS comes up with under Baker's directive of "simplicity." Let's hope they don't just add a few pages to explain the ones we already can't understand.

Baby M belongs with biological father

The fate of surrogate parenting is being decided in Hackensack, New Jersey. A trial is currently underway there involving Baby M., whose biological father and surrogate mother are waging a custody battle.

Mary Whitehead entered into a contract in which she agreed to be artificially inseminated by William Stern and, for $10,000, to bear a child for Stern and his wife. When the child was born, Whitehead changed her mind and now wants the child to remain with her and her husband.

Baby M. belongs with the Sterns. Whitehead entered into a contract and she must adhere to it. Although the bond of a mother to her natural child certainly cannot be ignored, in this case it is not reason to break the contract. Whitehead has given birth to several children—when she entered into the surrogate contract with the Sterns, she should have been aware of her potential for strong maternal instincts. Although it is unfortunate that she has had a change of heart, she should do as she legally promised, *and* what is best for the baby, and surrender custody to the Sterns.



Paul Orzulak

Co-op member or non-member— What *exactly* are the benefits?

The baskets were starting to get a little heavy.

Walking around the Co-op, the twenty-odd books, notebooks, files and pens I'd been carrying around for half an hour started to weigh down and I just couldn't seem to find John Locke's *Second Treatise of Government.*

What's probably most interesting about walking around a college bookstore is that you see a good majority of books that hardly anybody else in the entire free world has ever seen. Books like "*An Economic Interpretion of the Hidden Manifest Destiny of the people of Kabul,*" and other such spell-binders usually find a common place in the American collegiate classroom.

Having chanced upon the *Second Treatise*, I headed for the inevitable long check-out line (you know, the place where your entire winter's break savings goes) and was told by one person to stand in the left line.

Ten minutes later, the same person told me to advance to the register on the far side, where a smiling cashier greeted me with three short words.

"Member or non-member."

"I beg your pardon?"

"Are you a member or a non-member," she repeated, irritated.

"Member of what?"

"A member of the Co-op."

"I'm not really sure."

"Well are you a student?"

"Would I be buying thirty books if I wasn't?"

"Ok, what's your number."

"Wait a minute. I don't remember ever signing up to be a member."

"You don't actually sign up. You see, when you pay your initial fee bill, th op takes $25 and that makes yo member. Then when you graduate, you get the money back."

"Oh. What if I quit school, or transfer. What happens to the money then?"

"I don't know. But being a member has certain benefits."

"Benefits, huh. You mean like getting a monthly newsletter and being able to attend the Co-op Summer Party?"

"No, nothing like that. You get a certain percentage back on everything you buy at the Co-op during the year, so it saves you money."

"Oh, I get it now. Every time I buy something, you ask for my number, and a computer keeps track of all the purchases I make, and then I get a check in the mail at the end of the semester."

"No, there's no computer. You have to save every receipt you attain during the course of the year, and then at the end you come in with all of them, fill out a paper and the Co-op reimburses you at a percentage of your total."

"You're kidding."

"No."

"What's the percentage?"

"Well, it's not determined yet. At the end of the year, the Co-op staff goes through the total sales, and then decides on a reasonable rate to give back to students. It's really quite simple. The more you buy, the more you get back."

"But what if I lose some of my receipts, or am not able to make the buy-back at the end of the year."

"Then you lose out. It's not a perfect system."

"Why don't you just give a five percent discount every time a member purchases a Co-op item? That would save all the hassle at the end of the year."

"Two semesters ago, we did give a five percent discount on all textbooks that were bought. But the management figured that was unfair to people buying art supplies, because they didn't get a discount."

"Why not just give equal weight to all Co-op items, with an even percentage to all members on all purchases? Seems pretty logical."

"I don't know. Look pal, I just work here. I don't own the place."

"You know what would solve the whole ness?"

"What?"

"If they'd just drop the prices by a few dollars and not even worry about special discounts."

"You can't do that."

"Why not?"

"Because that would be too simple."

UConn has potential to be a big fish in a Big (East) pond

The UConn basketball team must stay in the Big East.

It's simple, really.

The Huskies are a charter member of the league, but lately some media have been questioning if UConn belongs there. On WTIC's *Sports Talk Monday*, Scott Gray suggested that the Huskies should leave the Big East. He's suggesting we avoid our problems instead of solving them.

The basketball team and UConn athletics in general have had many well-publicized problems over the recent months.

•Terry Coffey and Al Armstrong were declared academically ineligible for the team in January of 1986.

•Earl Kelley lost his eligibility the following month.

•Last year's team lost its final eight games to finish 12-16, tied for last place in the Big East.

•Dom Perno resigned as coach in April of 1986.

•Athletic director John Toner was reassigned on January 22, 1987.

•Four days later, Phil Gamble and Cliff Robinson were declared academically ineligible to play.

•The next day, state contractors said the proposed sports center needs an additional $5 million in funds and won't be completed until at least1989.

•This year's team, now down essentially to just seven players, has a 7-12 record, coming off a 75-50 loss to St. Peter}s Tuesday.

Not a pretty picture, but still no reason to run from the Big East.

The Big East is undoubtedly one of the top three conferences in the country, along with the Big 10 and the Atlantic Coast Conference.

The Big East produced back-to-back national champions in 1984 and 1985, Georgetown and Villanova. In fact, in 1985, the Big East came within two points of having four teams go to the National Collegiate Athletic Association Final Four.

Andre Turner's last-second jump shot gave Memphis State a 59-57 win over Boston College in the Midwest Regional finals, preventing BC from joining Georgetown, St. John's and Villanova in the Final Four.

Last year, Georgetown, St. John's, Syracuse and Villanova made the NCAA Tournament, while Providence and Pittsburgh went to the National Invitation Tournament.

Schools would kill to get in a conference such as the Big East.

UConn is already in.

People think it's great in principle that UConn is in the Big East— they just don't like seeing the Huskies being a doormat in the conference.

Surely UConn could win more games in the Atlantic 10 or ECAC North Atlantic, say those who favor leaving the Big East.

And they're right. Uconn *would* win more games in another conference. Having to play Rhode Island and UMass twice a year instead of Georgetown and Syracuse would guarantee more wins. Instead of coming off four consecutive losing seasons, the Huskies might be coming off four straight post-season appearances.

But is it progress becoming a big fish in a small pond?

Providence didn't think so.

The Friars had always been last or next to last since the league formed in 1979. That is until last season.

Coming off a 3-13 league mark and a 11-20 overall record in 1984-85, Providence, under first-year head coach Rick Pitino finished fifth in the conference at 7-9, and went 17-14 overall including a trip to the NIT.

This season Providence is even better. Although the Friarslost to Boston College Tuesday to fall to 6-3 in the conference and 17-4 overall, they're ranked 17th in the country by the Associated Press.

Pittsburgh, at 17-4 overall and 6-2 in the Big East, has also emerged as a national power, and is ranked 13th by the AP.

It's possible to make rapid advancement in the Big East, just as it's possible to make a rapid decline such as Boston College has done.

The Eagles are now just 9-11 overall and 2-8 in the conference.

The way to advance is to have a complete commitment from the athletic department. The situation has already reached bottom but has the makings of coming back:

•First-year head coach Jim Calhoun, who knows how to build a winner. He proved it at Northeastern, where his teams went 250-137 in his 14 years there and went to the NCAA Tournament five of the last six years. And Calhoun has said repeatedly that he thinks the university has the commitment to build a winning team.

•UConn will have a new full-time athletic director plus have John Toner devoting his attention to overseeing the sports center. Even more than the academic problems, the sports center has been a source of embarrassment for the school. Groundbreaking has been pushed back again to this summer.

The school needs to break ground to show evidence that the facility will be built. Signs won't convince potential recruits of the university's commitment, but construction-in-progress will.

• With the appointment of Dr. Joy O'Shields to head the Counseling Program for Intercollegiate Athletics, perhaps the CPIA will be able to better help athletes like Robinson and Gamble stay on the team.

Robinson and Gamble also have a responsibility to UConn. They must regain their eligibility to show potential recruits that the program does work.

It's not going to be easy to become a Big East contender, but if it does happen it will be worth it.

To those who think the Huskies should pull out of the Big East, watch a tape of Monday's Georgetown-St. John's game, which St. John's won in overtime at a sold-out Madison Square Garden.

Or a tape of Saturday's overtime win by Georgetown before 31,000 fans in Syracuse's Carrier Dome.

Or last week's game when Providence beat Georgetown on a last-second shot at the sold-out Providence Civic Center.

That's what Big East basketball is when played at its best. There are no reasons to think UConn can't get to that level.

UConn can be a big fish in a big pond.

Joe Erwin is a Daily Campus sports editor.

Mike Royko

TV preacher warns fans: 'Your money or my life'

Oral Roberts, the TV preacher, has the opportunity of his lifetime. With the right move, he can make as dramatic an impact on religious beliefs as anyone in modern times. Through one simple gesture, he could convert millions of atheists and other doubters to Christianity.

All he has to do is drop dead on March 31.

By doing so, Robersts would prove to skeptics that he was telling the truth when he said God recently warned him that if he didn't raise a fast $8 million by the end of March, he was going to be wafted to heaven.

Many scoffed when Roberts revealed God's stern ultimatum. Even his fellow TV preachers said God doesn't come around threatening to pull their plugs if they don't pry enough dollars out of their flocks.

But. Roberts insists that it's true. If his followers don't get that check or money order in the mail, it's time to roll out the hearse.

This creates a fascinating problem for Roberts' many admirers, of which I am one.

Yes, I have been an Oral Roberts fan since 1980, when he reported that Jesus Christ, standing 900 feet tall in his bare feet, had spoken to him.

Having seen quarterbacks quake at the sight of a mere 7-foot lineman, I was impressed by Roberts' poise. Most people, if suddenly confronted by a 900-foot-tall bearded man, might swallow their tongues. Roberts just shouted "Hallelujah," or words to that effect.

Despite my admiration for Roberts, I think it would be a mistake to send him money. More than a mistake, it would be a disservice to him and his religious goals.

Although he intends to use the $8 million for worthy causes, these causes are insignificant compared to the awesome good that would result from his failure to raise the $8 million.

Just consider the potential.

On March 31—the deadline he says God gave him—Roberts appears on his Bible-thumping network.

He looks into the cameras and says: "Some time ago, I told all you faithful folk that God had revealed to me that if you didn't send $8 million by the end of March, he would take me from you.

"Well, I have here a certified statement from my accounting firm. According to their figures, we have fallen short by $2,680,975. 52.

"I suppose some of you thought I was kidding when I told you what would happen if I failed. Well, just watch this."

Then, as we look on, his eyes roll up in his head and he plops face-down on the stage. A doctor comes out, puts a finger to a limp wrist, shakes his head and says: "I'm afraid Oral Roberts has left us."

Of course, it would be even more persuasive and inspiring if, instead of Roberts simply falling over, a bolt of lightning suddenly zapped him. And when the smoke cleared, all that remained would be his empty shoes.

But however it happens, if it happens, it would lead the greatest conversion of religious doubters in history.

"That's it," the stunned agnostics would say. "You'll see me in church this Sunday."

"Hand me the good book, brother," the atheists would respond, "and dunk me in that pond."

Believe me, I am not wishing harm for Oral Roberts. To the contrary. It would be something glorious.

For one thing, Roberts has said that God told him that if he had to take him, his destination would be heaven. How many of you out there have had that kind of personalized guarantee? What's wrong with going to heaven? Especially with the kind of miserable weather we're having this year.

But more important than Roberts' spiritual itinerary would be the benefits his departure would have on his fellow man. Besides the millions of religious conversions, the potential for raising money for worthy causes would be enormous. The cassette sales of his demise alone would raise a fortune.

So I call upon all the Oral Roberts followers to help him achieve a much greater good by refusing to send him a plugged nickel.

Community Music teaches young and old

By Gary Shaboo
Campus Correspondent

The Community Music School (CMS) is in the midst of its sixth year of expanded musical instruction, and provides a setting where students two-and-a-half to seventy years old can learn the arts of voice, as well as instruments ranging from violin to classical guitar, flute to saxophone, and piano to percussion.

Co-sponsored by the University's Department of Music, The School of Fine Arts, and The Division of Extended and Continuing Education, the CMS was started in the fall of 1981 by Associate Professor of Cello Mary Lou Rylands. Described by present director of the school, Andrea Graffam, as a "gifted pedagogue," the zealous Rylands and the CMS made up for the lack of string programs in the area and also doubled as an aesthetic outlet and whetstone for a previously music-needy community.

The CMS began with eighty students and a faculty of twenty and has grown to nearly four hundred students from forty three different towns being taught by almost fifty professional and qualified music and voice instructors. Faculty experience runs the artistic gamut: from collegiate artists to Hartford, Eastern CT, and New Britian Symphony performers.

There are many levels of instuction at the school. One of the most intriguing is the Suzuki Instruction program. Some off-road dirt-biking? No, an offbeat method for teaching piano, cello, flute, and viola to, primarily, three and four year olds. Developed by post-war era violinist Shinichi Suzuki, the Suzuki method "...champions the unique contribution music can make in the total learning process," as he himself notes. He further believed every young child had the equal capacity to learn if given the proper conditions.

The CMS holds six classes in Suzuki Instruction for kids three to six and beyond, all with constant parent supervision and encouragement. The child plays

THE UNIVERSITY OF CONNECTICUT

Attention Liberal Arts Graduates

A Career in Information Systems Awaits You.

United States Surgical Corporation is the world's leading manufacturer of Auto Suture® wound closure instruments, and is headquartered in Norwalk, Connecticut. The Company has a progressive Management Information Systems (MIS) Department dedicated to providing for corporate information needs.

Each year the MIS Department brings in new people through a formal training program which provides a unique and exciting opportunity for non-technical college graduates in a highly sophisticated environment.

To qualify, you must have outstanding communication skills backed by creative problem-solving capabilities and a demonstrated ability to learn. Once you've completed the initial training phase, you'll work on programming projects for a variety of areas, such as finance, marketing and manufacturing. As your skill level increases, so will your responsibilities.

ON-CAMPUS INTERVIEWS WILL BE HELD
WEDNESDAY, FEBRUARY 11, 1987

This is an extraordinary opportunity to turn your Bachelor's degree into a challenging information systems career. For complete details and to sign up for an interview, contact your career placement office.

NOMINATIONS WELCOMED
for the
Division of Student Affairs & Services

1987 DONALD L. McCULLOUGH AWARD

The Donald L. McCullough Award is presented annually to the UConn student(s) who have made significant contributions to the University community through their leadership skills and services to student organizations and University groups.

NOMINATE A DESERVING STUDENT LEADER TODAY!

Nomination forms, criteria, and award descriptions are available in S.U. 258Sor by calling Ext. 3423.

Nomination deadline is February 20, 1987

NOMINATIONS ARE WELCOME FROM ANY MEMBER OF THE UNIVERSITY COMMUNITY

Computer Science & MIS Students

SHARE THE INSPIRATION.

The rush of adrenaline. The surge of excitement. The flash of inspiration. Familiar feelings to talented DP professionals at The Travelers. And to the promising graduates who'll join us this year.

You've discovered these feelings in your academic work. Recognized them in the elegance of advanced technology. And now you can share in them at The Travelers, where the support is stronger, the environment more sophisticated and the applications more challenging.

As a distinguished Computer Science or MIS graduate, you now have a difficult decision to make about your future. That's why we created ACCENT. A fast-paced, competitive program. Offering technical and management training through a diverse range of assignments leading to key professional positions.

All in one of the most advanced DP environments in the financial services industry — including the largest IMS shop, 18 IBM mainframes and a 36,000 terminal SNA network.

But our commitment to staying on the cutting edge of DP technology doesn't stop there. We've recently installed 13,000 IBM PCs, integrated the latest 4th generation languages, and we're developing our future leaders with ACCENT.

If you have a degree in computer science, MIS or a related discipline, high academic achievement, exposure to hardware and software, and some programming experience, you have the right credentials for ACCENT.

If you're a highly-motivated person, an independent worker, and an innovative thinker, you have the right chemistry for ACCENT.

Now make the right move. To The Travelers ACCENT program. Where you'll find varied and valuable learning experiences. A supportive human environment and a sophisticated technical one. And where you'll find plenty of opportunities to help move you ahead.

You'll also receive a competitive salary, complete benefits and even an IBM PC AT to take home with you. Plus generous relocation assistance to our Hartford, Connecticut home office.

So, if you're a bright and talented computer-oriented major, join The Travelers. Where the accent is on you and the inspiration is shared by all.

Find out more about signing up for The Travelers interview schedule. Recruiters will be on campus Monday, February 16. Or, send your resume to: Priscilla Pellett, 30-CR, The Travelers Companies, One Tower Square, Hartford, CT 06183-7060.

...music lessons for all ages

From page 14

a piece by ear first, and, when confident, the child begins note reading. The town of Mansfield is one of only two towns in Connecticut that provides free Suzuki instructions to children in grades K-3.

Other CMS programs include ensemble and chamber music instruction and participation. Many continuing middle school students at CMS play in the chamber music program which presents more of a challenge and a higher level of teaching and, in the words of Miss Graffam, "It builds more independence. Listening skills are developed which eventually form the complete musician."

The CMS Summer Arts Program, formed in cooperation with The Greater Mansfield Council for the Arts, began two years ago and offers courses in such arts as music, dance, and drama. Its greatest success was the performance of *The Pirates of Penzance*, where two hundred people were reportedly turned away. Ages eight to sixty were represented in the production which was directed by Robert Cumming, former president of The New York Gilbert and Sullivan Society and founder of Connecticut's own similar society. This summer, *The H.M.S. Pinafore* is planned with Cumming retourning as director. The Progam's Children Theatre Production may put on the African folk play *The Dancing Spider*, but plans are not yet final.

For older audiences, some of the other courses offered by the CMS are instruction in rock/jazz bass guitar, jazz piano, and music theory. Adult-only courses are offered for the violin, cello, and piano, and there is a course in chamber music for the classical music lover.

Another branch of the CMS is being planned for Quinebaug Valley Community College in Danielson, which bodes nothing but good for its community where the arts will be make available for all ages and musical inclinations.

Private lessons began this week, but for more information, those interested can call Andrea Graffam at 486-2484.

Talented and devoted, both staff and students practice to hone their skills. (Dan Dennehy photo)

...Ruckus at Benton Museum

From page 11

which would explain his openness to perceive 19th century artists as he does in his work, "19th Century Artists". In this work of etchings, he collects a scene from such painters as Cezanne, Degas, Rodin, Delacroix, and Whistler, and seperately depicts them in a somewhat sexual situation. His humor is fantastic, though, and comes through in all his works. One of the most amusing ones was called "Dali Salad", where the head and hands of Dali are encased in a bubble-dome. The whole work depicts Dali as one preserved for eternity in a Jambalaya salad.

If you enjoy a good laugh, and can relate to art in the category of cartoon brilliance, this exhibit is for you. The Grooms exhibit runs until March 15 at The William Benton Museum of Art. Student admission is two dollars; non-students are three dollars. Snacks and drinks are available.

Students and faculty alike enjoyed exhibits such as the sculpturama of quarterback Fran Tarkenton at Red Hot Ruckus. (Dan Dennehy photo)

Valentines and Killer Chili attack Company One

Company One, the resident theater ensemble at The Hartford Arts Center, 94 Allyn Street, Hartford, will present the one act play *Valentines and Killer Chili*, by Kent R. Brown, Thursdays in February at 12:15 as "Play with Your Food", the Lunchtime Series continues. Tickets will be available at the door.

For about 40 minutes, *Valentines and Killer Chili*, a country-western song come to life, takes a look at love through the memories of a truck driver who frequents a certain Texas diner run by one slightly eccentric waitress. The play won the 1985 Drama-Logue Award for excellence. Brown is a Professor at The University of Arkansas. His plays have been produced in Los Angeles, Washington, and San Francisco.

The director, Bobbi Randall, who is a familiar actress to Company One audiences, received her Master of Fine Arts in Acting from the University of Connecticut. This will be her first directing assignment for Company One. The roles of Jason and Jackie will be played by Burt Garskif and Judi Sprague. Burt has acted with the Performance Studio and serves as a Professor of Psychology at Asnuntuck Community College. Judi teaches acting at the Hartford Academy of the Performing Arts, and is currently working on her PHd in theater.

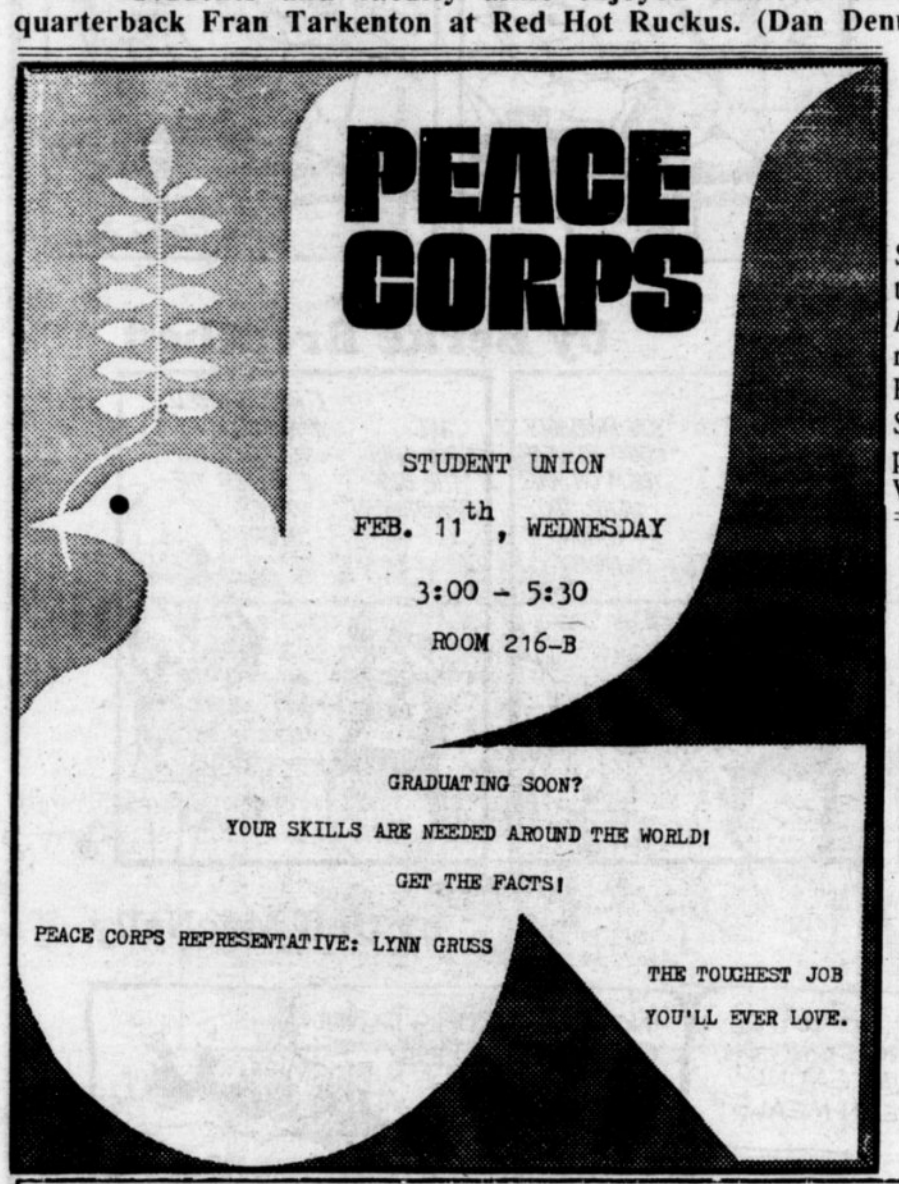
Catered lunches are available or theatergoers can brown-bag it. For further information, call 278-6347.

...Maids and Madams

From page 11

American Cultural Center today at noon, and tomorrow at 7:00p.m. with the film *Yes, Ma'am.*

Filmed in the stately mansions of New Orleans, *Yes, Ma'am* proves a provocative companion piece to *Maids and Madams*. The maids in both films share the burden of hard physical labor for poor compensation and portray a more harmonious relationship between white and black. *Yes, Ma'am* will be shown at the Afro-American Cultural Center tomorrow at noon, and then again at 7:00 p.m. with *Maids and Madams*.



Nothing's gonna stop The Starship

LOS ANGELES — The Starship's first recording since thier 1985 platinum album *Knee Deep In The Hoopla* was released by RCA Records. Entitled "Nothing's Gonna Stop Us Now," the song was produced by Narada Michael Walden and will be featured in *Mannequin*, a new motion picture scheduled for February release.

Starship completed work in December, 1986 on a video for "Nothing's Gonna Stop Us Now," with band members Grace Slick, Mickey Thomas, Craig Chaquico, Pete Sears and Donny Baldwin joined by record producer Walden and *Mannequin* co-star Meshach Taylor.

The "Nothing's Gonna Stop Us Now" video was directed by Michael Gottlieb, who also directed *Mannequin*, and written and produced by *Mannequin* executive producer Edward Rugoff. The video is a production of Roizman & Associates.

Mannequin, a romantic comedy starring Andrew McCarthy and Kim Cattrall, is a Gladden Entertainment presentation due for release in the U.S. and Canada by 20th Century Fox on February 13th. Scenes from the film are incorporated in the Starship video.

"Nothing's Gonna Stop Us Now" will likely be included in the Starship's as yet unscheduled follow-up to *Knee Deep In The Hoopla*.

New York was a **CLASSIC** thanks to you, but crashing the **Esto Ball** is just the beginning ..... We're looking forward to much more **fun** and **fantasy** with you — this could be dangerous, huh??!! Oh well, what are Estonians for but to rag on and play jokes on? Anyway, we're really glad to have you as a new friend even if you do raid **Richard Simmons'** wardrobe!! Hope to see you in **5** years and keep saving those cans for the **Koala** trip...
Love ya',
Spit and Spud
P.S. Hope your nose is better. Maybe you should stop breathing so much. Either that or get some normal friends...
SEE YA'

Bewis: Now its finally all legal; Drunk Driving, cheap shots, underwater glasses, absolut, semi formals, and another semester. Happy 21st birthday Sam, BK & 4th.

UCMB - Welcome back! The first council meeting is tonight at 7:30. Everyone is welcome . . . and remember, it's fun and it's free!

HEY SIZZLER! HAPPY BIRTHDAY! GUESS WHO? LOVE, C AND D.

SHARON - HOORAY!!! You're finally 21!!! This is your day so go crazy! California and 21 all in the same year? Get Psyched! Happy Birthday! Love, Ames

DG Pledges: You guys are the best and I'm proud to pass our future into your hands. See you at inspiration Wed. 8 PM - semi-formal attire for wine and cheese at Delta Chi afterwards. ITB, Chris

James- The greatest boyfriend in the world - Happy Anniversary - I love you very very much!!
Jacquie

Andie, the wire editor was not caught napping on the front page 2/3. Would the real napper reply in Personals — I could be your twin.

To the guys that took our Fischer box and Panasonic touch-tone phone on Litchfield 4th Sat. night: Keep the money but please return the box and phone. Two people saw you leaving the dorm with our stuff, and the police have the serial numbers. Laura and Jess.

Jeff New London I know things have been tough but my love for you is still as strong. Thanks for making me understand that what we have is worth it. I love you Jackie.

TELL SOMEONE YOU LOVE THEM — SEND A RED PERSONAL. AVAILABLE AT THE DAILY CAMPUS. DEADLINE IS THURSDAY, FEB. 12TH — 1:00 P.M.

Robyn R. in McMahon: SURPRISE! Happy 22nd Birthday! Wishing you a HEALTHY year, and more playing time. Have a fantastic day! Love, SCHICK

Rich, once I dreamed that you were gone, I cried, I tried to find you. I begged the dreams to fade the way that dreams awaken me. The night took ahold of my heart , and left me with no one to follow. The love that I lost to the dark I'll always remember. Forever in my heart. Forever you will see. Always thought I'd be. I'd be yours, Forever. Quitting is too easy in a world of risky endeavors. Kelley.

Who are you? Statuesque, striking brunette in white fisherman's sweater seen at Ellsworth Sat. nite? You stood out from the crowd. YSA

TO THE NIMROD WHO STOLE MY LEATHER JACKET FROM "TED'S" ON DEC. 22, 1986. YOU HAVE THE OPPORTUNITY TO RETURN IT TO THE PLACE OF THEFT WITH NO QUESTIONS ASKED. AFTER THAT, THE S--T WILL HIT THE FAN, BECAUSE I HAVE A PRETTY GOOD LEAD ON HOW TO FIND YOU. THIS IS YOUR ONE CHANCE FOR AGONY - FREE RESTITUTION.

Interplanet Janet - Oh, you galaxy girl! Happy 20th! Here's to good friends, good times and good lovin' before you're 21! Love always, Sara and Judy.

GO AHEAD, MAKE HIM SEE RED — A RED PERSONAL THAT IS. TELL HIM YOU CARE. STOP IN AT THE DAILY CAMPUS BEFORE 1:00 P.M. THURSDAY, FEB. 12TH. DON'T FORGET!!

Linda Video! Happy (somewhat belated) Birthday! Love always, Sara.

PI PHI PI PHI.

TO OUR BIG SISTER DEB OF PI PHI: WE LOVE YOU AND WE'RE HERE FOR YOU. LOVE YOUR LITTLE SISTERS SHARON AND AMY.

Lori, you'd be such a pretty girl if you'd just smile! I love ya' anyway. Hope your birthday is great!
Love, Lisa

DON'T MAKE HER BLUE — SEND A RED PERSONAL NOW. DEADLINE IS THURSDAY, FEB. 12TH — 1:00 P.M.

As Reggie Williams (34) goes, so go the Georgetown Hoyas. So far, Williams and Georgetown have gone pretty much wherever they have pleased.

Big East profile:

Williams is key to Georgetown success

NEW YORK (AP) — Georgetown's Reggie Williams is a marked man. Defenses know if they limit the slender 6-foot-7 senior forward, there is a good chance they can beat the 10th-ranked Hoyas. It hasn't happened too often.

Gone are Patrick Ewing, Michael Jackson, David Wingate and Bill Martin, the players who, along with Williams, helped the Hoyas become one of the nation's best teams in recent years.

Williams, the only senior and returning starter on the squad, scored 26 points, but missed seven straight shots at the close of Monday night's game, enabling No. 19 St. John's, led by Mark Jackson's career high 34 points, to pull out a 67-65 Big East victory.

Georgetown Coach John Thompson is rebuilding around Williams with mostly inexperienced players, but the Hoyas have managed to post a 15-4 record and are in the middle of the Big East pack with 5-4 mark.

The Georgetown offense is geared to set numerous pick for Williams.

"It's a lot of pressure, but the young guys help out a lot," Williams said. "I think I've handled it. I do have to come in with a different mental attitude. I draw more attention from opponents."

On Monday night, Williams drew St. John's Willie Glass, regarded as one of the nation's top defenders. He fired away for 26 points, but had his 24th point with 5:54 remaining in regulation play before hitting a cold spell.

He scored Georgetown's only points in overtime when the Redmen outscored the Hoyas 4-2.

Glass' shooting suffered (2-for-11 from the field and only five points) from chasing Williams.

"He's the best I've played against so far," said Glass, visibly tired after his 42 minutes of intense play. "You got to get help from your team. I felt like a pinball machine."

Williams had one air ball during his slump but five of them went around the rim and popped out.

"The ball was going in and out, " said Williams, who is averaging 24 pints.

Williams has been doing more than shoot. He leads the Hoyas in rebounding (9.8), is second in assists, second in blocks and leads in steals.

...men's hoop

..."Youth Day" clinic

From back page

which is open to all players and coaches, will feature lectures by four prominent Connecticut high scholl girls basketball coaches: Joe Daddio Southington HS, Southington CT), John Krot (Killingly HS, Killingly CT), Carolyn Pagnano (Greenwich HS, Greenwich CT), and Mike Shea (Windham HS, Windham CT).

Following the clinic and lunch, the UConn Huskies, under the direction of second year coach Geno Auriemma, face Big East power Providence College at 2 p.m. in an important conference match.

The UConn-Providence game will feature two of the top teams in the Big East Conference. UConn is putting together its finest Big East showing ever. The Huskies, 9-9 overall, currently stand fourth in the Big East rankings with a 5-4 mark. The Lady Friars of Providence, who were one of two Big East squads to advance to last year's NCAA National Championships, currently sit in second place in the league with a 7-2 conference mark. Providence is 15-4 overall entering this week's action.

For further information on "Youth Day" activities this Saturday, February 7, contact UConn women's basketball head coach Geno Auriemma at (203) 486-4756.

Ask Dennis Conner, skipper of "Stars and Stripes", how many more wins he and his crew need to take the America's Cup 12-meter yacht racing championship back to the United States. The American team leads 3-0 in the best of seven series over Australia's "Kookabura III" (UPI photo).

Kookaburra III overwhelmed by Stars and Stripes

FREMANTLE, Australia (AP) — There wasn't much Iain Murray could do Tuesday to fatten Kookaburra III's slim chances in the America's Cup. There wasn't much Dennis Conner had to do.

Stars & Stripes, skippered by Conner, has been fast, and its crew work has been almost flawless in sailing to a 3-0 lead in the best-of-seven final for yachting's top prize.

Kookaburra III, skippered by Murray, has been overmatched and overwhelmed.

"I'm a litle surprised they're not a touch faster," Stars & Stripes tactician Tom Whidden said Tuesday on the eve of the fourth and possibly deciding race.

For the first time since the series started last Saturday, the Aussies didn't lose a race Tuesday. They didn't win either because, after winning Monday, Conner wanted a day off to await stronger winds.

Should Stars & Stripes win Wednesday, the cup would be presented Friday at a ceremony at the Royal Perth Yacht Club.

The American boat went out on the Indian Ocean for about an hour's practice Tuesday. Murray's crew also went sailing to try and sharpen crew work. They couldn't do much about the boat itself.

"We're pretty locked in by the rules on what we can and what we can't do" to change the boat, Murray said, "but, certainly, we'll be searching high and low."

Stars & Stripes' victory margins were 1 minute 41 seconds, 1:10 and 1:46. The American boat has led after every mark of the first three races. Each race consists of eight legs.

Still, Conner took nothing for granted. After a 2 1/2-year campagin to regain the cup he lost in 1983 aboard Liberty, he didn't mind waiting one more day.

"We came here to win the America's Cup," said Conner, the only U.S. skipper to lose the cup since competition began in 1851. "We felt that it was in our best interest to race" Wednesday rather than Tuesday because an increase in winds was expected.

Conner also ran into the unexpected. An anonymous caller to a Melbourne television station issued a death threat against him, police said. Security was strengthened at the Stars & Stripes compound, police said, although Conner was smiling and joking and a greater police presence wasn't apparent at a news conference announcing additional sponsors.

"If the guy really wanted to take care of us, he wouldn't have called first," Whidden said.

On the final leg of Monday's race, a chase boat sped to Kookaburra III's side to tell the crew that a bomb threat had been telephoned in against the Australian boat. The yacht was searched during the race, and no bomb was found.

EDWARD VICTOR GANT SCHOLARSHIP

The Edward Victor Gant Scholarship is a gift of the Board of Trustees of the University of Connecticut and the family and friends of Edward V. Gant. The award is to be granted on the bases of academic excellence, professional potential, dedicated service, and exemplary personal integrity.

Both graduate and undergraduate students are eligible for consideration, and the award is open to students from all of the schools and colleges. The scholarship for 1987-88 will be in the amount of $2,000.

Nominations must be received in the Department of Student Affairs, U-62, by February 27, 1987. A letter of support should be forwarded with each nomination.

Lady cagers rolling right along

Look to keep perfect home conference record

Tammi Sweet and her teammates on the UConn women's basketball team hope to continue their climb up the Big East ladder tonight when they host Seton Hall in the Field House at 7:30 p.m. (Dan Dennehy photo).

By Kristen Kelleher
Daily Campus Staff

Something unusual is going on with the women's basketball team. Something that has never happened before. The Huskies are ranked fourth in the Big East, with a 5-4 conference record and a 9-9 overall record and are quickly becoming viable contenders for the Big East title.

Last week's small roll, started after UConn beat St John's the week before, has gained momentum at a steady rate. The Huskies swept two straight away games, one at Boston College on Wednesday and the other at Pittsburgh on Saturday, breaking an away losing streak that had stretched to six games.

With five of the last seven conference games at home, the Huskies have reason to feel slightly confident. UConn has a 5-1 home record, including an undefeated record of 3-0 in conference play.

But before counting any chickens, UConn must consider its upcoming schedule. Tonight is a rematch with Seton Hall, the team that soundly beat the UConn 71-57 early in January. The Huskies will have to face the only three teams that have better records than UConn, Villanova (10-0), Providence (7-3) and Syracuse (7-3)-all within the next three weeks. Plus Boston College, in the last game of the year, will be out to avenge its one point loss to the Huskies last Wednesday.

There must be a reason for the success of the team. One obvious reason is junior Rene Najarian. She not only leads the team in overall scoring (15.3 ppg) and rebounding (8.8 rpg), but also leads the Big East in rebounding and third in scoring.

Najarian was not able to play in Saturday's game against Pittsburgh, due to illness.

Huskies whipped 75-50

By Mike Boland
Daily Campus Staff

NEW BRUNSWICK, NJ -- St. Peter's limited UConn to 33 percent shooting from the field to jump to a 25 point half time lead, and coasted to a 75-50 victory in men's basketball action last night.

Sophomore guard Willie Haynes was good on 8 of 13 field goal attempts, and a perfect 4 for 4 from the foul line, to lead the Peacocks with 20 points. Three other St. Peter's players, Daren Rowe, Tom Berry and Larry Jones scored in double figures, 17, 15 and 10 points respectively, to lead St. Peter's to its 15th win in 20 tries.

Only Jeff King, with 14 points, and Tate George, with 12, were able to register double digit scoring totals for UConn. King also paced the Huskies in blocked shots, swatting away seven St. Peter's field goal attempts.

Leading the Peacocks in blocked shots was the Invisible Man. UConn missed 40 of their 60 field goal attempts, and scored a grand total of 13 points in the first half, to St. Peter's' 38. The 25 point gap at intermission was the closest the Huskies would get, as the two teams traded 37 point second periods.

Gerry Besselink led the Huskies with nine rebounds, but could only chip in four points in 33 minutes before fouling out of the game.

The non-conference loss drops UConn to 7-12 on the year.

Next up on the Huskies' schedule is Holy Cross, which visits the UConn Field House on Thursday. Tip-off time is 8 p.m.

Wednesday Digest

Softball names 1987 captains

The UConn women's softball head coach Karen Mullins has announced that senior outfielder Lynn Wisniewski, senior outfielder Bonnie Black and junior first baseman Dawn Muzoleski have been selected to serve as 1987 softball tri-captains.

All three were starters on last year's 30-17-1 Husky squad which finished the year ranked No. 3 in the NCAA Northeast Region and was ECAC Division 1 Championship runnerup.

Wisniewski, the only three-year letter winner on the squad, was an NCAA First Team All-Northeast and First team All-New England selection last spring. Wisniewski, one of three outfielders to claim first team regional honors, batted .289 in 1986, finishing second on the team in hits (37) and RBI (15). She enters her final season fifth in UConn career games played (99). A standout defensive performer in both left and right field, Wisniewski holds a .983 career fielding average, having committed just two errors in 125 total chances. The senior is a Sports Medicine/Physical Therapy major.

In her second year as starting first baseman last spring, Muzoleski produced an impressive year at the plate. A 1986 First Team All-Northeast and First Team All-New England pick, Muzoleski led the Huskies in seven offensive categories: batting average (.333, 49-147), hits (490), RBI (19), doubles (9), total bases (64), on base percentage (.385) and games started (48).

Muzoleski, who set the UConn single season records for hits (49) last spring, enters her junior year tied for second in career hits with 87, second in career fielding average (.985), third in career doubles (13) and fourth in career batting average (320). She is a Dean's List student as a Physical Education major.

Black, a 1986 Second Team All-New England outfielder, is a two-year letter winner. Last spring as the starting rightfielder, she drove in 7 RBI while batting .186, and placed second on the team in walks (14). Black is a Dean's List student as a Journalism major.

In the 1987 pre-season NCAA Division 1 Northeast softball which was released Friday, Connecticut is ranked No. 3 in the region behind Massachusetts and Adelphi. The Huskies open their 1987 campaign in mid-March with a seven game southern trip to South Carolina. UConn's season opener is a 1:00 p.m. doubleheader on Sunday, March 15 against Princeton at Lexington County Complex, Columbia, SC.

Women's basketball hosts second annual "Youth Day"

Coach Geno Auriemma's UConn women's basketball team will hold its second annual "Youth Day" on Saturday, February 7, 1987 when the Huskies host Big East opponent Providence College at the UConn Field House.

All state-wide high school and junior high school girls' basketball teams and coaching staffs are cordially invited to attend "Youth Day" activities, all which are free of charge.

Beginning at 10 a.m. and running until noon, a two-hour clinic will be held at the UConn Field House. The clinic,
